

SUNCREST TOWNE CENTRE

Morgantown, West Virginia

Suncrest Towne Centre is a true-to-life traditional Main Street of shops and restaurants that will become a destination in itself. The 102 acre master planned development is a lifestyle center that includes the upscale inline Towne Centre with retail and office space as well as outparcels for restaurants, banks, hotels, and supermarket.

The upscale look of this development was achieved utilizing pre-engineered steel systems ideal for low-rise non-residential buildings. The Suncrest Towne Centre was included in the 2011 VP Building Hall of Fame with "Best of" honors in the Retail category. Buildings selected for the Hall of Fame illustrate the enormous possibilities that result from the close collaboration of architects, engineers, builders, and owners. Ultimate functionality and unique aesthetic appeal combine to create truly extraordinary buildings.*
